mudrā - Online Outsert Serialization Machine

FEATURES

- ✧ Compact modular design for all types of outsert folding lines
- ✧ 15" Touch screen IPC with user-friendly multilingual user interface
- ✧ An accurate system that ensures no duplicacy of UIDs on outserts
- ✧ Auto print format selection as per product selection
- ✧ A standalone system with the built-in facility to generate UIDs as per user selection. That is quantity, number of digits in the 2D code along with prefix & suffix
- ✧ Facility to import UIDs from external file
- ✧ Incremental / Decremental serial number 2D code printing
- ✧ TIJ printer prints high-quality 2D code & low maintenance

FEATURES

- ✧ High resolution smart camera for 2D code inspection with gradation as per ISO/IEC 15415 and GS1 Validation
- ✧ Unique transport system with top belt drive ensure stable & aligned leaflet movement
- ✧ Completely secured & enclosed system with polycarbonate top cover
- ✧ No separate printer-camera adjustment
- ✧ Toolless settings ensure minimum changeover time
- ✧ Encoder based tracking of product ensures foolproof rejection
- ✧ Integrated rejection bin with rejection bin full sensor
- ✧ Various interlocks like rejection verification, low air pressure
- ✧ 4 user levels & role management - Administrator, Supervisor, Operator & QA
- ✧ Various statutory reports like audit trials, production summary & user activity reports
- ✧ Meets 21 CFR Part 11 & GAMP compliance
- ✧ Suitable product size (mm): 35 X 35 to 80 x 80, Thickness (mm): 5 to 16
- ✧ Overall machine dimensions (mm): 615 L, 530 W, 1581 H
